

### **CHANGING MEDIA FOR CELLS GROWN IN FLASKS IN THE CSC**

1. Aspirate off all medium using 2 mL aspirating pipette connected to a vacuum hose
2. Add fresh medium (15 mL for T-75s, Fisher Cat # 10-126-37, 25 mL for T-175s, Fisher Cat# 10-126-61)
3. Label flask with media change, date and initial
